

Health Information Technology

curriculum code: 1969 | HEGIS code: 5214

minimum credit hours required: 60

This career program provides students with the skills necessary to prepare for employment in today's medical office/health information departments. The program offers an education that will prepare a student in automated medical office communications, medical terminology, medical coding, healthcare documentation, medical transcription and medical insurance, as well as advancing the implementation and effective management of electronic health records (EHRs). The program also provides a broad background in liberal arts that will add to students' ability to develop decision-making skills. Upon completion of this program, students will be able to enter the job market or transfer to a four-year institution. **Program is also available online.**
