

Health Information Technology

curriculum code: 2692 | HEGIS code: 5214

minimum credit hours required: 31

This program is designed to provide students with the skills necessary to prepare for entry-level employment in today's medical office/health information department. The program will also develop students' office skills along with specialization directed toward medical terminology, medical insurance, and medical office procedures. The certificate provides students with the basic core of work and problem-solving abilities and constitutes the first half of the A.A.S. Health Information Technology degree. **Program is also available online.**
