# JAMESTOWN COMMUNITY COLLEGE

**State University of New York** 

# INSTITUTIONAL COURSE SYLLABUS

Course Title: 4D Design

Course Abbreviation and Number: ART 2540 Credit Hours: 3 Course Type: Lecture/Lab

**Course Description:** Students will be introduced to concepts and basic principles of designing in time and develop an awareness of time-based problems with a sensitivity to the tools of time-based media, including video editing software. Projects explore contemporary practices in photography, video, media literacy, and socially engaged art.

Prerequisite/Corerequisite: ART 1670, ART 2550, or CMM 1710.

### **Student Learning Outcomes:**

Students who demonstrate understanding can:

- 1. Demonstrate knowledge of time-based media, including video editing software.
- 2. Apply observational skills, research, creativity, and critial thinking to time-based projects.
- 3. Evaluate, discuss, and critique time-based media projects.

## **Topics Covered:**

- Moving image art in relation to course projects
- Basic video editing software and workflows
- Basic audio production and sound workflows
- Refine, and apply composting, visual effects, and other post-production workflows
- Various video formats, frame rates, date rates, and other technical components of time-based media
- Contemporary and historical artists incorporating time-based media into their work
- Photography and related media in relation to time-based projects
- Socially engaged art: Engagement through human interaction and social discourse
