Articulation Agreement Between
Jamestown Community College and Roberts Wesleyan College
For the Bachelor of Science in Organizational Management

Roberts Wesleyan College (RWC) in Rochester, NY and Jamestown Community College (JCC) in Jamestown, NY, join in a cooperative relationship designed to enhance the educational opportunities available to adult learners.

RWC is an independent, coeducational, liberal arts college in the Christian tradition founded in 1866. The liberal arts education presupposes the complexity of the world and the diversity of human nature. RWC is accredited by the Middle States Association of Colleges and Schools. The Bachelor of Science (BS) in Organizational Management program also carries a professional accreditation by IACBE (International Assembly for Collegiate Business Education).

The Organizational Management bachelor’s program is a degree completion program which allows working adults with a minimum of 60 semester credits (or an associate’s degree) the opportunity to complete their degree in as little as 15 months. RWC recognizes that learning occurs in many environments.

JCC is a comprehensive, open access, community-centered educational institution which meets the service area’s learning needs in diverse ways, including liberal arts transfer degree programs, career programs, community service, developmental education, and business and industry training. The college’s partnership with the greater community contributes to the social and intellectual improvement, economic development, and cultural enrichment of western New York State and northwestern Pennsylvania.

This agreement represents the intention of RWC and JCC to cooperate in making the RWC degree completion program accessible to adult students who wish to pursue a non-traditional baccalaureate degree grounded in adult learning theory.

The purpose of this agreement is to assist adult learners in using the resources and services of JCC to meet the entry requirements for the Bachelor of Science in Organizational Management degree program at RWC. Students with an associate’s degree from JCC who are working adults, have a minimum of two years of professional work experience and demonstrate proficiency in writing (as demonstrated by completion of ENG 1530 College Composition with a minimum grade of C and by passing RWC’s entrance essay) will be admitted to the RWC Organizational Management degree program with full junior status. Students who do not meet the work experience requirements may be admitted at the discretion of the RWC Organizational Management Program Director. Admitted students will have the opportunity to complete the Organizational Management bachelor’s degree within 15 months through online courses and prescribed documentation and evaluation of their portfolios of life and work experience.
Students with 30 or more semester hours of college-level coursework may state to RWC their intention to enroll in the Organizational Management degree program, with the expectation that they will complete a minimum of 60 credit hours (or complete an associate’s degree) at JCC. Remedial/imputed credit courses will not transfer. The following courses duplicate coursework in the Organizational Management degree program and will also not transfer: BUS 2680 Management and Organizational Behavior and PSY 2540 Interpersonal Relations and Group Dynamics. With these exceptions, all credits which meet requirements for a JCC associate’s degree will transfer toward meeting requirements for the Bachelor of Science in Organizational Management degree. Any additional JCC coursework with a minimum grade of C-, up to a maximum of 72 total JCC credits, will also be accepted in transfer toward meeting BS Organizational Management degree requirements.
